freedom, diversity, and fairness for all.**

The World is waking up. Are you ?

Lots of people of all ages and backgrounds are visiting a local group and finding that they are not alone in being awake even though their family and friends are steadfastly asleep in believing the totalitarian lies and deceit. A lot are alone when they come but leave stronger and more happy that they have found new friends with whom they can talk freely to confirm that being awake is not so unusual.

QUOTE – "What a pleasure to meet awake people at a Stand In The Park. Such friendly and open conversation."
