

## Actions used to lower your Status

Within the **Public World**, which is controlled by legislation and private organisations, you will often encounter people who will try and get you to accept a **title**, in an attempt to lower your status below their own.

Note: The government's version of "**the public**" is in fact a private group requiring membership, which is controlled by the state and should not to be confused with the true meaning of the word "**Public**" referring to common land.

Using titles is one way to lower your status; another is to make you accept a course of action.

Carrying out the following actions will strip you of your status as Sovereign and reduce you to the lowest status within a court of administration or judicial court.

### Make a Plea

If you are asked to "**make a plea**", you have just been stripped of your rights, and been given only two choices, either guilt or not guilty.

The word **Plea** is short for **plead**, meaning to make an emotional appeal, such as begging.

However as a living breathing man or woman you have a third option, and that is to question the validity of the claim made against you. In other words, if a claim or charge has been made against you, you request they prove it.

### Re-present

In administrative and judicial court you will be required to have someone, usually a lawyer or solicitor, to represent you, or for you to "**represent**" yourself.

However if you accept this, you now have a lower status than the lawyer or solicitor, who has a lower status than the judge. It is also impossible to "**Re-present**" yourself, as you can only **present** yourself.

What this tactic is trying to do, if you accept this offer, is to get you to **represent** your **legal fiction**, and in some courts you will be representing a trust that was made in your name without your knowledge or consent.

### Summoned

People are "**summoned**" or "**subpoenaed**" to appear before court on a daily basis, however many do not check the paperwork and ask very simple questions.

Note: A "**summons**" sent through the post is from administrative, or corporate court, and is an invitation only.

To be summoned before a court of law you must first be accused of a crime. You must be presented with a warrant, signed by a judge, which is backed up by an affidavit certified by the accuser.

If you do not know the name of the person who has accused you, and you do not have the name of the judge, then if you are taken you have been kidnapped.

Most warrants today are based on a legal fiction, and not supported by a judge. Furthermore you are not even being summoned to appear in a ***court of law***, but either an administrative court acting as a trust or a judicial court, meaning a court controlled by a Judge and **not** a jury.

If you accept the ***“summons”*** based on a legal fiction, meaning in the name of a corporation, or referring to your legal fiction, then your status and rights have been lost.

## **Presenting Your Licence**

This may seem innocent enough, but when you are asked to hand over your ***“driver’s licence”*** by a police officer, you have just handed over all your rights and lost your status.

To understand this, we must realise what is actually going on.

First, the word ***“Traffic”*** or trafficking is a legal term used in commerce to transport goods from one place to another. It only applies to a business who has agreed with legislation.

The title ***“Driver”*** is referring to an occupation, and if you accept this legal title, then you are considered to be working for the state and are now subject to all the traffic codes, legislation and licencing required.

The word ***“Vehicle”*** refers to a tool of the trade; an object used while you are working as a driver under commerce.

With the simple act of handing over your driver’s licence when requested by a police officer means you have entered into a contract with the police officer and have accepted all the traffic codes.

This is clearly deceptive and therefore fraudulent, as to have a lawful and legally binding contract, there has to be full disclosure before consent.

## **Signing a Ticket**

You have now agreed to the title driver, and to appear in court.

Note: when you are issued with a ticket it is referred to as an offence, not a crime. An “offence” refers to breach of contract; they cannot call it a crime as no law has been broken.

Furthermore you have just proclaimed the law, as it is you who has just signed and dated it. Before you signed it, the law did not exist.

Note: There are no such things as ***“road laws”***, nor can there ever be. All roads are common land and are owned and used by all.

It is unlawful for a living breathing man or woman to forcibly apply policy onto another on common land.

## **Signing any Legal form**

People within corporate government departments cannot act against you without your consent. To achieve this consent they will offer you to sign their paperwork, documentation and forms.

With the knowledge of the Plebetoral system and Black's Law dictionary, the deceptive writing within these forms is clear to see.

The person presenting you with a form to sign is trying to gain your **"Assumed"** consent, and not **"Informed"** consent.

Note: the word **inform** comes from two Latin words; **in** meaning **"into"** and **forma** meaning **"form"** or **"shape"**. When combined it means **"give form or shape to"**, also **"form the mind of, teach"** and **"shape, fashion, describe"**.

However the word **Formal** from the ancient Greek language means **"with form"** and **"In-Formal"** means **"without form"**. The Greek word **"in"**, before **"formal"** means **"not, opposite of"**.

You will be asked to use black ink, write in all caps, and tick a box denoting your title, whether it's Mr Mrs or Miss.

This gives consent to using a title against your name, placing you within the jurisdiction of **"Mercantile Law"**.

The black ink refers to death, or dead entity and the all caps makes reference to your corporate name, and not you.

Never use their paperwork, always use your own.

## **Go to Court**

If you **"go to court"**, you have entered their court and left yours.

This is an administrative court and you have accepted the title defendant, robbing you of your sovereign status and giving authority to the judge.

Never step through the gate, it is called the **bar**. Doing so is acceptance of the private codes of the bar association.
