

## TO VOTE OR NOT TO VOTE, THAT IS THE QUESTION; AND IF TO VOTE, THEN WHO FOR?

The impending general election here in the UK is unlike any other election in our country's history. The facts are: **ALL** our main parties have morphed into a **cohesive bland tasteless soup**. For an **opposition**, we need bums on seats in parliament; to **question, debate** and work at **reforming** the whole system.

The **reality is**, we have to **evolve and grow a new system**, while **systematically breaking down** the present one. We can and must work on this problem from both ends simultaneously.

### This cannot be done by NOT participating.

However dissatisfactory and corrupt the present system is; to not participate means not changing anything. Then, **the system we refused to change, will come for us and our children.**

The question now is does the candidate you are voting for stand a **realistic chance of winning in that constituency?** If so, great, but if not; then voting **Reform UK** may be the only realistic chance of bums on seats in parliament and of this nation **starting a process of change.**

Did you know that Reform UK has fielded candidates in every constituency in England, Scotland and Wales? That alone says something.

Please think long and hard before **you choose** to not vote or which candidate you do vote for. Having spent much time these last six months in the Reform UK camp; I have been amazed at how many people quietly come and say that they feel they can no longer vote for any of the main parties and are desperate for change so they are choosing to **revolt, by voting for Reform UK**. This may well be the **first stepping stone** to break the deadlock and open up parliament to many more parties, eventually leading to some kind of maturity of non-party politics.

## WILL YOU BE A PART OF THIS REVOLUTION?

### If so, its time to vote FOR REFORM UK

North Devon Candidate Nigel James campaign leaflet

**BROKEN BRITAIN**

**OUR 10 COMMON SENSE POLICIES ARE**

- 1. LOWER TAXES**  
Government do not take wealth they tax and take it. So taxes should be lower on the poor and middle class, not the highest they can get away with.
- 2. REFORM NHS**  
The NHS is the biggest most expensive service and does not always deliver value. It is inefficient because it costs a lot more to commission services than getting to source private care.
- 3. FIX WORK POLICE**  
The prime purpose of the police is to serve the people, prevent and solve crime, not to advocate for "lawful" objectives.
- 4. KEEP CASH**  
We must keep physical cash and not allow it to be replaced. Digitalised cash is not real and leads to increased surveillance of financial freedom and erodes responsibility and personal security.
- 5. EDUCATE OUR KIDS**  
and keep them safe from indoctrination  
The purpose of the education service should be to teach children mathematics, English, sciences, how to think, not what to think for those over 16 and not of parents.
- 6. SECURE BORDERS TO STOP ILLEGAL IMMIGRATION**  
Immigration should be controlled and not a free for all.
- 7. POLITICIANS SHOULD DELIVER THE ELECTION PROMISES ON WHICH THEY WERE ELECTED**  
Politicians must deliver on the mandates given to them by the British public. Brexit is not done and it needs to be done.
- 8. REJECT UNELECTED, UNACCOUNTABLE ORGANISATIONS** (e.g. D.O., W.F.P., E.C.H.R.)  
The current government our politicians have aligned themselves with, neglects our national sovereignty, therefore, no longer represents the British voters and these needs addressing quickly.
- 9. REJECT NET ZERO CARBON AGENDA**  
Let Zero agenda uses the chosen science to create a good crisis to control and reap extra revenues from people and industry. Politicians need to care for our planet, its people and industry.
- 10. GOVERNMENTS ARE THE SERVANTS OF THE PEOPLE - NOT THE OTHER WAY ROUND**  
The principle of Parliamentary democracy is that sovereignty and power lie with the people. Government is elected by the people, for the people.

WITH THESE TEN COMMON SENSE POLICIES, THE UK WILL BECOME STRONG, PROSPEROUS, AND FREE
